

Turn Your World Around

The Flip is based on a premise that is the most fundamental truth about our life and world: that we are standing at the crossroads of two worlds—a world of fear, frustration, and breakdown, and one of physical and spiritual well-being, sustainability, and meaning. Which world will we choose? The authors of this brilliant work tell us that this is up to us—and show us how we can make practical use of this awesome power in our hands. A book for all people who think of themselves as an aware and responsible human being.

— Ervin Laszlo, Founder of the Club of Budapest, author and editor of 70 books including *Science and the Akashic Field*

“If you want your love not to be merely a nice feeling that you sometimes experience, but to be the guiding force enlivening all your actions, read *The Flip*. It's great!”

— John Robbins, author *Healthy At 100*, and *Diet For A New America*
